

THE COSTS OF DATA BREACHES

For 83% of companies it is not a question of whether a cyber attack will happen but rather when.

Organizations already using AI or automation solutions have seen savings of \$3 million in the cost of breaches.

IN 2022 THEY WERE NECESSARY

277

DAYS TO FIND AND CONTAIN A DATA BREACH

HEALTHCARE

Average cost of a breach in healthcare

10,10
milions of \$

RANSOMWARE

Average cost of ransomware attack

4,54
milions of \$

CLOUD

Average cost of private cloud breaches

4,24
milions of \$

Companies that implemented an incident response (IR) team saved an average of \$2.66 million.
